Threshold falls with training: $c_{50} \propto N^{-0.43}$ (law: $N^{-0.5}$)
250k steps (Study P): c_{50} = 0.60%
1M steps (Study O): c_{50} = 0.33%
4M steps (Study P): c_{50} = 0.18%
Share of runs at leverage 16, 2% equity
